WORKING FOR NORTHERN TASMANIA

As your representative in Parliament I have:

- Assisted thousands of people, businesses and community organisations with their issues and concerns
- Held the State Government to account on the economy, health, education and its social agenda
- A plan to raise the literacy and numeracy outcomes of all Tasmanians, to create a job-ready generation by extending high schools to Year 12 while equipping the training system to deliver what our community needs

We need to get Northern Tasmania buzzing again. I will work tirelessly within a Liberal majority Government to boost our local economy and provide opportunities for everyone.

HOW TO VOTE:

Please vote 1 Michael Ferguson, then 2-5 for the other members of the Liberal team in order of your choice

Tasmanian
Liberals

Authorised by Michael Ferguson, 1 Civic Square, Launceston

1 Michael Ferguson

Make the change with me!

What I stand for:

JOBS FOR LOCAL FAMILIES

My record is one of standing up when jobs and industry are under political attack. Since Labor adopted the job-destroying policies of the Greens, the unemployment queue has grown to 21,000 Tasmanians (enough to fill Aurora Stadium) while thousands more have left the state, desperate for work. I will work within a majority Liberal Government to restore investor confidence, bring back job security and create employment.

REBUILDING OUR HEALTH SYSTEM

As both a Federal and State MP, I have fought for our Launceston General Hospital; and I'm proud of my work as former CEO of the Clifford Craig Medical Research Trust. I want to see the wards and surgical theatres which were closed by Labor being used again. So that Tasmanians can get their operations sooner, the Liberals will invest \$76m to tackle the surgical waiting list.

RESTORING EDUCATION STANDARDS

I am a qualified teacher and scientist - having taught Maths, Science and IT in Northern state schools. Also, as a family man, education is a passion very close to my heart. Sadly, Tasmania's education standards have fallen because of expensive, failed experiments. As the Liberal spokesman for Education, I have a plan to get our standards at least back up to the national average and give parents a much greater sense of confidence in our education system.

My vision is for
Tasmanians to be
the happiest people,
enjoying the best
quality of life in
Australia.

I'm standing in Bass
again with great belief
and optimism for our
future. Now, I ask
for your support:

Make the change with me.

Vote **1** Michael Ferguson

A Liberal majority government will:

- Rebuild our essential health and police services, and invest in education to create a job-ready generation;
- Cut red and Green tape to encourage investment;
- Build a modern economy to create jobs;
- Provide strong and stable government; and
- Get budget spending under control
