

DR ROSALIE WOODRUFF

MEMBER FOR FRANKLIN

Dear neighbour,

If you don't trust politicians, you're not alone.

For years we've seen the housing crisis deepen, the health system breaking, climate change accelerating, and the gap between the ultra-rich and everyone else widen.

In response, all we get from most politicians is hollow promises and empty words. That's because politics is stacked in favour of big corporations who secretly donate millions to the Liberal and Labor parties every year.

We don't get meaningful action on the issues that matter because the major parties are working in the interests of big corporations. Too often, everyday people are ignored.

It's little wonder 30,000 more Tasmanians are in poverty now than when the pandemic began.

The Greens don't accept corporate donations. That means we'll fight for you - and for real change.

We have a plan to build back greener and fairer from COVID, and to make sure no-one is left behind.

By making big business pay their fair share, we'll build 8,000 new homes, fully fund health and education, make public transport free, and guarantee every young person a job.

We'll take real action on climate, and protect our wild places, waterways and forests that make our island home so special.

And we'll rid our community of pokies once and for all.

With your support, all this is possible. Together we can create a better future for lutruwita/Tasmania.

Warm regards,

Rosalie
