I am Amy Brumby – your Labor candidate for Franklin. I am standing in this election because I believe Tasmanians deserve better than the current Government.

I was born and raised on the Eastern Shore and have lived in Kingborough since 2016.

Last year showed me Tasmania urgently needs significant improvement when it comes to mental health services, particularly for young people. My 15 year old daughter was diagnosed with an acute mental health disorder during the worst of the COVID-19 lock down. Navigating the systems for the support, treatment and the help she needed was confusing, frustrating and extremely difficult. I know we are not the only family to face such struggles. **We must do better for our future generations to ensure they can grow up stable, healthy and happy individuals.**

As a survivor of family violence I know how hard it is to find support, guidance and information about your rights when in this situation. We need to do better. I am determined to campaign for more resources, clearer pathways and easier access to legal support.

I studied Commercial Cookery at TAFE, before working in Hospitality for 10+ years. I've been a single mother on casual Hospo wages, wondering if my shifts next week would be enough to pay my bills, working every weekend and nights while missing precious time with my daughter.

I owned and operated my own small business, Lean-to-Kitchen for 2 years, so I understand how much work is involved in starting and running a small business.

More recently I have worked with United Workers Union. Over these 17 years I have worked with hospitality and public sector workers like the Education Facility Attendants who clean our children's schools. **I understand how politics plays an important role in the lives of working people** and that when people have good stable jobs, our economy benefits.

My values are based on **respect, honesty and trust**. I believe everyone is entitled to be heard, especially those in our community that feel overlooked, forgotten and feel like they don't have a voice.

I genuinely believe with the right vision and determination positive change is possible for all Tasmanians. If elected on May 1 I will work hard to stop the privatisation of public assets, increase resources and accessibility for mental health services, better support and legal access for survivor/victims of family violence.

I need your #1 vote so I can take action for Franklin.

Yours sincerely

Amy Brumby
Labor Candidate for Franklin

Alison **STANDEN** MP

Vote **1**

For a better place to live

I have worked hard over the past three years to represent Franklin in the Tasmanian Parliament. I have campaigned on issues in local communities such as the water quality at Blackmans Bay beach, which is now safe for swimmers. I'm passionate about our electorate because it's where I live with my family. I want everyone to feel a part of the community, just as I do. On May 1, I'm asking for your No.1 vote because I want to continue to listen to you and to speak up for **secure jobs, affordable housing, better health services** and **better roads** to ease traffic congestion. Throughout my career, I have brought people together and worked for stronger communities. I have listened to the Franklin electorate during my time in Parliament and it is clear that Tasmania deserves - and expects - better. Together, we can make that happen.
